SEE YOU AT APEX 2023 IN SAN DIEGO! HANWHA BOOTH #2133

NEW
THE STANDARD OF FLEXIBILITY
XM520

CUTTING EDGE MODULAR MOUNTER
HM520

Fast & Flexible Mounter
DECAN S1

The Standard Of Flexibility demonstrations featuring Hanwha's model XM520 pick-and-place system showing the advantages of single and dual lane efficiency, with greater flexibility, extended component range, multifunctional/odd-form capability, mixed production-readiness and compatibility with HM, Decan and SM series platforms.

Cutting Edge Modular Mounter demonstrations featuring Hanwha models HM520HS + HM520MF modular pick-and-place systems inline with back-to-back Hanwha ESE stencil printers showing the floorspace performance benefits of running different product / dual lane production for best-in-class ROI.

Fast & Flexible Mounter demonstrations featuring Hanwha's model Decan S1 pick-and-place system inline with Hanwha ESE's stencil printing technology demonstrating quick setup and changeover for high quality prototyping and NPI production applications.

T-Solutions Software demonstrations featuring modular software solutions for setup verification, traceability, line monitoring, production planning and third-party systems support for Industry 4.0 initiatives.
